Counter Card Assembly Guide

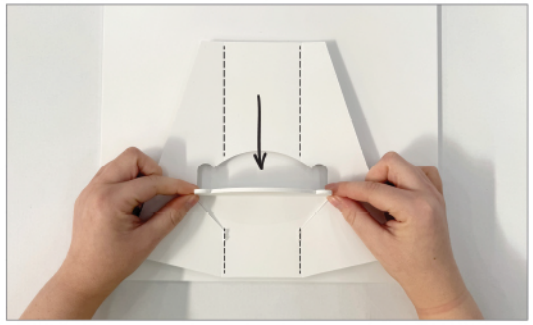

All Counter Card Sizes

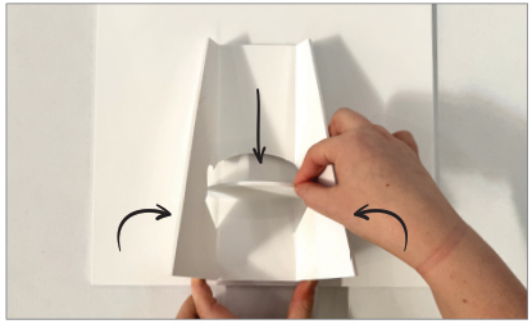

Step 1: Unpack the Counter Card and lay it flat, face down, on a table.

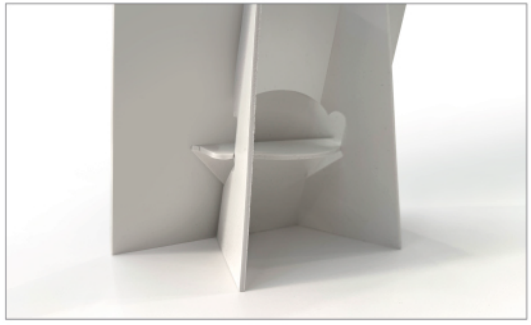

Step 2: Pre-fold the left and right flaps inward.

Step 3: Pre-fold the center strut downwards.

Step 4: Once all areas are pre-folded, lightly pinch the left and right flaps, then gently pull down the center strut until it clicks into place.

Step 5: That's it, your custom Counter Card is ready to display and sell. Easy!
