Artwork specifications and size guide

Reference guide only. Diagram is not to scale and is not a print ready template.

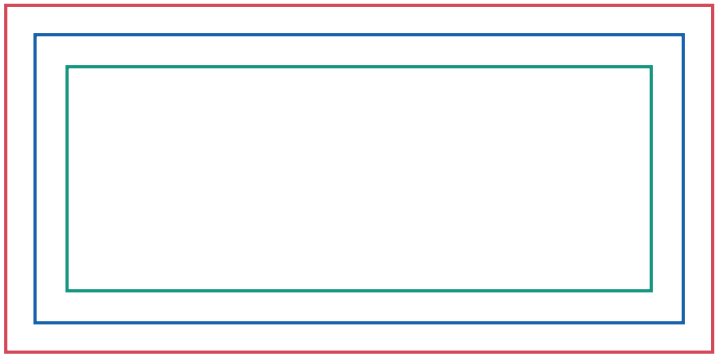

Prepare artwork at the selected finished graphic size.

Add 20mm bleed on all four edges. Keep backgrounds extending to the bleed edge.

Keep text, logos and important details at least 15mm inside the finished edge.

Supply CMYK PDF artwork with embedded images and fonts converted to outlines.

Use at least 130dpi at full size. Supply artwork for both printed fabric inserts.

Outer edge: 20mm bleed

Blue: finished graphic edge

Green: 15mm safe area

Finished graphic sizes (mm)

Modules	Width	Height
1	559	717
2	1118	717
3	1676	717
4	2235	717
5	2794	717
6	3353	717
7	3912	717
8	4470	717
9	5029	717
10	5588	717

Two inserts per fabric package: one continuous graphic for each side.

Frame only orders do not include printed graphics.

Replacement graphics: confirm hardware compatibility before preparing artwork.

Silicone edge: 3mm thick x 13mm deep. Use the selected finished size above.
